

## 2. Categorical Exclusion Justification

ACTIVITY	RECOMMENDED DETERMINATION
Provision of staff to USAID GH Bureau and field mission health operating units and partners through fellowships.	Categorical exclusion, per 22 CFR 216.2(c)(2)(i)
Logistical support for staff assigned to USAID space and equipment	Categorical exclusion, per 22 CFR 216.2(c)(2)(i)
Staff training	Categorical exclusion, per 22 CFR 216.2(c)(2)(i)
Workshops, management and technical assessments and conferences that do not generate hazardous waste nor significant municipal waste	Categorical exclusion, per 22 CFR 216.2(c)(2)(xiv)

## 3. Finding and Determination

The effort described above constitutes a class of actions that are not subject to general procedures as set out in 22 CFR 216.2 because they are exclusively “staffing, studies, training, or programs intended to develop the capability of recipient countries to engage in development planning” that do not “directly affect the environment” (22 CFR 216.2 (c)(2)(xiv)). Should the technical assistance or capacity building efforts generate any indirect impact such as the generation of health care medical waste , construction of facilities (including incinerator rehabilitation, or upgrades), or direct impact on the environment, this Categorical Exclusion will not apply and supplemental environmental documentation will be required. Further, if activities are modified such that the descriptions herein no longer applies or other activities are added to those described, an amended IEE will be prepared and submitted to the GH/BEO for approval.

## CLIMATE RISK MANAGEMENT SCREENING TEMPLATE GLOBAL HEALTH SUPPORT INITIATIVE II / III

### 1. Program/Activity Data

Program/Activity Number	AID-OAA-C-10-00049
Program/Activity Title	Global Health Support Initiative (GHSI-II / GHSI-III)
Country/Region	Global
USG Foreign Assistance Framework	All Health Elements
Period Covered	Dec 17, 2016 – Jan 16, 2023
Life of Project Amount	\$277,052,195.37 (as of this date)
Screening prepared By	Wallace Lloyd, GH/P3/PIBM
Management Unit Contact Person	Wallace Lloyd, GH/P3/PIBM
Current Date	December 1, 2016

### 2. Climate Risk Ratings

This document serves to document the results of the Climate Resiliency Screening conducted to evaluate the potential climate risks of the described activities. In accordance with [Executive Order \(EO\) 13677](#) and [Mandatory Reference for ADS Chapter 201 on Climate Change in USAID Strategies](#), USAID must conduct climate risk management screening for all new strategies, projects, and activities, as of October 1<sup>st</sup>, 2016.

**CLIMATE RISK MANAGEMENT SUMMARY TABLE  
GLOBAL HEALTH SUPPORT INITIATIVE II / III**

Project Elements	Potential Climate Risk	Climate Risk Rating <sup>1</sup>	How Risks are Addressed	Climate Risk Acceptable (Include Justification)	Further Analysis or Actions for Activity Design or Implementation
Intervention Design	Climate change may change the context influencing the targeted behavior (e.g., drought and nutrition/feeding practices, decreased income due to droughts or floods may impact decision making) and messaging/activities may need to be revised.	Low	Activities will be adjusted as appropriate.	None	Adjustments to activities will be considered, if applicable, at the activity/SOW level.
Technical Expertise	None	Low	N/A	None	N/A
Capacity Building	None	Low	N/A	None	N/A
Evaluation and Data Analysis	1) Climate change impacts may present confounding factors (especially drought, storms, flooding, change in vector habitat), making evaluation difficult. 2) Data collection may be interrupted due to extreme weather events.	Low	1) Evaluations will consider all confounding factors. 2) Schedules will be adjusted as necessary.	None	Each evaluation will consider all confounding factors, and will consider allowing for longer/flexible data collection period.

NOTE: Low climate risk does not require the development of specific plans to address climate risk. However, moderate to high climate risk requires appropriate *consideration* and response to the potential risk. In some cases, the program may decide to accept the risk and will document the justification.

<sup>1</sup> Climate Risk Ratings are defined as:

- Low climate risk: Climate change is unlikely to significantly impact achievement of development outcomes relative to other stressors and development challenges.
- Moderate or high climate risk: Climate change is likely or highly likely to significantly impact achievement of development outcomes.

### 3. Monitoring and Evaluation

GLOBAL HEALTH SUPPORT INITIATIVE (GHSI-II / GHSI-III) will incorporate climate change into monitoring and evaluation activities at intervals appropriate for the project and risk level. This project has been rated low risk and does not require further climate monitoring as long as the scope of work remains unchanged.

## Request for Categorical Exclusion

### Global Health Support Initiative III

#### 1. Program/Activity Data

Program/Activity Number	936-3105
Program/Activity Title	<b>Global Health Support Initiative – III</b>
Country/Region	Worldwide
USG Foreign Assistance Framework	All Health Elements
Period Covered	December 2013 – December 2021
Life of Project Amount	TBD
IEE Amendment	Yes. Original IEE dtd 11-19-13
IEE Prepared By	Jeff Evans, GH/P3 <i>[Signature]</i>
Management Unit Contact Point	Michael Wilburn, GH/PDMS

#### 2. Environmental Action Recommended

Categorical Exclusion	<b>X</b>	Negative Determination	
Positive Determination		Exempt	

#### 3. Background and Description of Activities

The project provides expert health and support staff to the Global Health Bureau, field missions, other USG agencies and partners and provides training and other professional development activities such as staff workshops, retreats, management and technical assessments, and technical conferences. It includes Foreign Service Nationals exchanges and fellowships as well as fellowships for US health experts.

#### 4. Categorical Exclusion Justification

Activity of Activity Category	Recommended Determination
Provision of staff to USAID GH Bureau and field mission health operating units and partners including through fellowships.	Categorical exclusion , per 22 CFR 216.2(2)(c)i
Logistic support for staff assigned to	Categorical exclusion , per 22 CFR 216.2(2)(c)i

USAID (office space and equipment)	
Staff training	Categorical exclusion , per 22 CFR 216.2(2)(c)i
Workshops, management and technical assessments and conferences that do not generate hazardous waste nor significant municipal waste	Categorical exclusion , per 22 CFR 216.2(2)(c)i

**5. Annual Screening**

Project will be screened annually by the COR/AORs to determine that there has been no change in project activities that would change the environmental threshold determination. A written record of the screening will be kept in the project files.

**6. Clearance:**
